

I'm Going to the West

G C G G D G G

In this fair land I'll stay no more here labor is in vain

G D C C G G

I'll leave the mountain of my birth and seek the fertile plains

G D G

I'm going to the west

G C G G D G

You say you cannot go with me you turn your eyes away

G D C C G G

You say you will not follow me no matter what I say

G D G

I'm going to the west

Three years have passed since we first met and you became my bride

Now I must journey far away without you by my side

I'm going to the west

I'll leave you here in this land you love 'mid scenes so bright and fair

Where fragrant flowers are blooming, and music fills the air

I'm going to the west
